H. **March 17, 2020** marks the temporary suspension of all OPD services except for some clinic with necessary arrangement. Hence, PHEDWU intensified health education on COVID-19 through utilization of data, information sent through Hospital HEPO's by DOH Health Promotion & Communication Service by which the following activities were undertaken:

- Utilization of Digi-board from OPD waiting area, the Billing Section, Philhealth Section and Digi-board at the finger scanning area on public awareness on COVID-19 health event
- Use of social media page for information on COVID-19 for public awareness
- Reproduction/distribution of IEC materials through the entrance/exit gate and placed at the finger scanning area for easy access of employees and wards for client's awareness
- Information and awareness through lecture on preventive measures for COVID-19 among hospital staff/personnel which started January 31, 2020 on a planned schedule in coordination with Infection Control Nurses.

Note: schedule and target participants attached

- >possible inclusion of the program in the research agenda.

March 11, 2020: Meeting with Service Delivery Network Coordination Committee regarding

- >the Function of the Committee & orientation of new members
- >Plan for 2020

II. CONCERNS:

- A. The current health event Covid 19, poses risk of exposure on face to face contact hence the unit needs internet access to enable it to receive and disseminate health information being transmitted by DOH-Health Promotion Communication Service (HPCS) for public awareness through social media. (PHEDWU relocated to OPD Well Baby Clinic because its previous site is considered as hot zone).
- B. PHEDWU is utilizing IEC materials through TV monitors, print out hence to facilitate the activity our requested communication for such activities be considered.
- C. There are identified overlapping of function on some committee with the public health & wellness program leading to confusion among stakeholders

III. RECOMMENDATIONS:

- Provision of internet access for prompt delivery and dissemination of accurate information to the public in the temporary area of the unit.
- Provision of a clear guidelines as a reference in channeling of communication as far as health information dissemination is concerned.

REPUBLIC OF THE PHILIPPINES
