Best Practices:

1. In spite of the restrictions brought about by the Covid 19 pandemic, the MTRO was able to continue providing training programs to the staff with the use of the online platform Zoom. Scheduled interdepartmental Specialty, Morbidity & Mortality Conferences as well as the Tumor Board Conferences were continued online. Webinars replaced face-to-face training programs.
2. Virtual rotations of paramedical affiliates in Medical Technology, Physical Therapy, and Occupational Therapy.
3. Postgraduate medical interns started their limited face-to-face rotations in the Out-Patient Department and Emergency Room following the health safety protocols.

Issues and Concerns:

1. Fluctuating Internet connection during online meetings, conferences, and webinars
2. Honorarium of speakers for webinars
