

Public Health, Emerging Disease and Wellness Unit

Accomplishment Report

2nd Quarter 2022

Background:

NCR's alert level for the 2nd quarter of the year remained to be at low risk. Face to face consultation at OPD was allowed provided online (Tele-consultation) was initially done. Not to be complacent as the Covid virus/subvariants are still around public is still reminded to adhere to the minimum health standards protocol because there is still the risk of contacting the covid-19 virus. For the current situation of health care setting, the Public Health, Emerging Disease and Wellness Unit submits its accomplishment report as follows;

I- Continuous linkage with DOH, Health Promotion Bureau (HPB0), DOH NCR MMCHD, HEPO links to keep abreast with the pandemic and other DOH Health event as a guide in the conduct of health information /dissemination activities.

- A. Adopted Risk Communication Plan from DOH and reliable sources to intensify public awareness/health information on the Prevention and Control of *COVID-19* and on other programmed health events. Distribution of Risk Communication /IEC materials at different strategic areas of the hospital.
- B. DIGI board media playback of Covid19 & scheduled health event at the different strategic location of the hospital
- C. Use of social media page for information on COVID-19 for public awareness
FB account - Public Health of Jose R. Reyes Memorial Medical Center with the following Posting & Engagement;

Posting= 119 Engagements=3717 (people reached)

- D. DIGI board video play following DOH based health event at the OPD and Finger scanning area for public view in observance of DOH health events for the month of April, May and June 2022
- E. Videos of TV monitors played as medium for communication of health information and awareness, prevention and control of COVID 19 for patients & relatives at the OPD (Family and Community medicine) waiting area
- F. Accomplished and submitted Weekly Report for HEPO's at DOH NCR - MMCH- on Risk Communication for the Prevention and Control of COVID-19
