**Best Practices:**

1. In spite of the restrictions brought about by the Covid 19 pandemic and the Community quarantine, the Medical Training and Research Office was able to continue providing training programs to the staff with the use of the online platform Zoom. Improved attendance and active participation in the conferences was noted.
2. The Medical Training and Research office took an active role in the trainings on Covid response for the interns, residents, and fellows by coordinating with the HEPO, the IPCC, The HEICS, and the clinical departments.

**Issues and Concerns**

1. Zoom subscription
2. Fluctuating internet connection
3. Additional computers and laptops to be used for on-line conferences and webinar/s

**Recommendations:**

1. Suggest that the institution will acquire the zoom account under one name
2. If possible, to add signal booster in areas with low internet connections
