	Principle : Kinetic Reading																		
	With isolation or bacterial detection and gold standard identification capability for organisms.																		
	Can operate 24hrs a day																		
	Has an internal and external temperature monitor																		
	Maintains a temperature of 35-37° C																		
	Must be linked to a computer for data management and work list																		
	Should be a 220 volts machine																		
	LIS ready and with Unique Bar Code Identifier																		
	Uptime rate of 95% or 28.5 days functional																		
	220 volts , and UPS with 2 hrs. support power system.																		
	Provide a system and materials for quality control																		
	Increased Identification Database																		
	Ability to deduce antibiotics.																		
	Must provide at least 5 units anaerobic jar with gas pack (CO2) containers as loan																		
	<b>OTHER REQUIREMENTS :</b>																		
	Must have good performance record																		
	Must provide monthly preventive maintenance service for free																		
	Must provide consumables free of charge																		
	Reagents must have at least twelve (12) months expiry date.																		
	Reagents with shelf life of less than three (3) months : a) must submit certificate from the manufacturers indicating the shelf life of the reagent. b) must submit certificate of Option To Return (OTR), if not consumed within the expiry date.																		
	Must provide 24Hrs. Service and support in case of machine breakdown.																		
	Model of machine must be five (5) years and below in the market, with installation within Metro Manila																		
	Must provide back up machine.																		
	Must provide brushless centrifuge at least 6 placer as loan																		
	Must provide 2 refrigerators for specimens and reagents storage as loan (at least 6 cu. ft.)																		
	JRRMMC-F-BAC-VB-10				February 2, 2015				Revision No.: 0								Page 65 of 108		

	Must provide certificate of product evaluation and demonstration issued by the End-user.																			
	Must provide certificate of availability of stocks and ability to deliver																			
	Must have a certificate of good standing issued by the end user																			
	Must have certificate of product registration from BFAD and must be ISO certified.																			
	Must provide quarterly calibration with certificate & sticker																			
	<b>STANDARD HOST COMPUTER SPECIFICATION</b>																			
	Must be able to provide the following : Patient Master Index Management. Order
